Title
Contributing to Open Source: A small guide

Elevator Pitch
Karuppiah will be sharing how to get started with Contributing to Open Source based on his experience from multiple contributions to Helm and it's ecosystem. It's considered that docs are The stepping stone for getting started. Karuppiah will show that bug fixes are also A stepping stone and why.

Talk Format: Lightning Talk

Level: Beginner

Description

Do you contribute to Open Source? If you haven't but want to, then this talk will help you get started with it. This talk will also show the different ways one can contribute. The content is based on the experience from contributing to Helm, and it's ecosystem.

Notes
I'll just need a mic

I'm the best person to talk about it as I have quite some experience with contributing to Open Source. You can check my contributions in my github - https://github.com/karuppiah7890 , particularly in Helm and it's ecosystem:
